

IN MEMORIAM

Julius O. Boos

1946 - 2010

A member of the Trinidad and Tobago Field Naturalists' Club of long standing, Julius Boos died in Miami on 11 July, 2010. He was an ardent and exuberant member of the Club when he lived in Trinidad. He has written many articles in our journal and was the senior author of a paper which described the Inca beetle *Inca clathrata quesneli* Boos and Ratcliffe which appears on the title page of Living World. An account of his life is given by his brother Hans Boos in the "Field Naturalist", our quarterly Bulletin, issue 3, July-Sept., 2010. p. 16-18.

The Editorial Committee extends its condolences to Hans and the rest of the family.
